

Seamless High Performance Agricultural Insulation & Condensation Control System

Agrispray® Benefits:

- Speedy Installation With No Mechanical Fixings
- Recommended For Insulation Upgrades To Existing Spray Foamed Or Composite Panelled Structures
- Safe For Use In Crop And Animal Storage Buildings
- Effective Low Thermal Conductivity Values
- Excellent Permanent Adhesion Quality To Any Surface
- Seamless Air Tight Insulation With No Waste
- Effective Surface Condensation Control, with free interstitial Condensation Risk Analysis service provided
- Fire Rated To BS476 Part 7: Class 1
- Provides Excellent Structural Stabilisation

The Hidden Costs of air leakage

	Model Building 1 5,000m ²	Model Building 2 10,000m ²
	Leaky unit of 20m ³ /h/m ²	
Air exchange rate	0.550 ACH	0.500 ACH
Estimated air leakage energy requirement	111,725 kWh used yr	221,757 kWh used yr
	Low leakage unit of 3m ³ /h/m ²	
Air exchange rate	0.080 ACH	0.075 ACH
Estimated air leakage energy requirement	16,250 kWh used yr	33,363 kWh used yr
Energy Savings	95,475 kWh yr	188,394 kWh yr
Cost Savings (Gas 4.4p/kWh)	£4,011 yr	£7,920 yr
Cost Savings (Electric 7.79p/kWh)	£7,427 yr	£14,700 yr
